## **HOUSING**

---

It is therefore proposed that the Old Age Retirement Village Rental Units tariff's charges for a single unit to stay at **R180.00** and **R360.00** for a double unit. The proposed rental tariffs rates is in acknowledgement of the fact that the tenants in the retirement villages are struggling to make ends meet due to the fact that they need to priorities other debts in the midst of electricity, medical and food costs that have been rising at rates that are above the official inflation rate over the past 5 years.

### 5) **Project challenges and mitigation strategies:**

The proposed 5.2% increase is intended to provide for the inflationary adjustments. No major challenges are expected.

There is however some level of expectation from small number of tenants that municipality should rent out residential units for free or at rental tariffs that are significantly lower than current approved tariffs.

The Councilors of all wards in which Council Owned Residential Rental units are located are aware of the rental tariffs increase yearly. The reason being that they're mandatory together with the officials to inform the tenants with regards to the yearly rental tariff rates.

Furthermore they are expected to encourage tenants to pay rental payment in order to cover portion of operational costs in a manner outlined on the proposed tariffs for 2020/21 financial year.
