16 AMENDMENT OF TARIFFS OF CHARGES FOR ENVIRONMENTAL HEALTH SERVICES

1 STRATEGIC THRUST

Good Governance and Financial Sustainability.

2 OBJECTIVE

The purpose of the report is to present to Council for tabling, amendments to the existing/current Tariffs of Charges for Environmental Health as permitted by law and charged by the Council for services rendered for the 2020/2021 financial year.

3 SUMMARY

There is a need to revise the Tariffs of Charges where necessary on an annual basis to make provision for new tariffs due to amended legislation and to prevent a situation arising where the Council subsidises users unnecessarily as well as to ensure a uniform City-wide Tariff of charges structure for the City of Johannesburg.

(1) PROCESS

Thought was given to the following aspects when the Tariffs of Charges were revised and/or decided upon:

- (a) Users and consumers of Municipal Services should be treated equitably in the application of the Tariffs of Charges.
- (b) The amount that individual users or consumers pay for services should generally be in proportion to their use of that service.
- (c) Tariffs of Charges must reflect the costs reasonably associated with rendering the service, and
- (d) Tariffs of Charges must be set at levels that facilitate the financial sustainability of the service.
- (e) Guidelines were obtained from the finance department to increase Tariffs of Charges by at least 5.2% - existing Tariffs are therefore increased on average by 5.2% rounded off to the nearest R5.00.

4 POLICY IMPLICATIONS

These are in line with the City of Johannesburg's policies on equity and the user pays.

5 LEGAL AND CONSTITUTIONAL IMPLICATIONS

This report has been finalized in conjunction with Group Legal and Contracts to ensure compliance with all relevant legislation. It should be kept in mind that by virtue of Section 28 (6) of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) once the new tariffs have been determined in respect of the 2020/21 Financial year, it may not be further increased during that financial year, except when required in terms of a financial recovery plan as contemplated in the Act. For that reason, it is essential to ensure that the proposed increases comply with the budgeted needs of the Council in respect of the 2020/21 Financial year.

6 FINANCIAL IMPLICATIONS

The proposed Tariffs of Charges in the table above will replace all charges throughout the City for similar services as from 1 July 2020. Projected income for 2020/2021 amounts to R 1,191 000.

Tariffs of Charges related to the impoundment of animals and the daily holding fees will be for the account of the SPCA in terms of the standing agreement between the said Society and the City.

7 ECONOMIC IMPLICATIONS

The projected income to be generated through applying the Environmental Health Fees and Tariffs will amount to R 1,191 000 for the 2020/21 Fiscal year.

8 COMMUNICATIONS IMPLICATIONS

Standardised Tariffs of Charges applied by all Regions and the SPCA branches throughout the City will prevent confusion amongst the public and business communities, thereby improving the image of the City of Johannesburg. The process of advertising to be followed will afford affected parties ample opportunity to comment. A supplementary template containing additional information to assist the public is
... attached as Annexure B.

9 OTHER DEPARTMENTS/BODIES CONSULTED

Group Legal and Contracts, Finance as well as Regional Health Managers and Environmental Health Managers within all the Regions of the City were consulted and their comments incorporated into the body of the report
