**103 AMENDMENT OF TARIFF CHARGES FOR  
EMERGENCY MANAGEMENT SERVICES:  
2019/20**

**1 STRATEGIC THRUSTS**

Improved quality of life and development-driven resilience for all. Provide a resilient, liveable, sustainable urban environment- underpinned infrastructure supportive of a low carbon economy.

**2 OBJECTIVE**

The purpose of this report is to propose a minor increase in the tariffs for Emergency Management Services (EMS) for the rendering of core business by xxx% across the board with effect from 1 July 2019 for the 2019/2020 financial year.

**3 SUMMARY**

**3.1 BACKGROUND**

Tariffs and assessment rates aim to conform to the guiding principles of the City's Tariff Determination Policy with specific regards to the following:

Tariffs must provide basic access to EMS services to everyone, including poor households. For the purposes of definition, a basic service shall mean a response to a medical incident where basic or intermediate life support is provided, or response to a fire in a residential dwelling. All other types of emergency call out incidents are to be regarded as specialist services. This is to ensure that commercial and industrial entities are made to be accountable for the risk they bring to the City, and do not receive a free service.

Tariffs must also provide cross subsidization for the poor, where necessary and feasible. The tariff structure and process should be simple and easy to implement. Tariffs should be cost reflective and cost effective – it should enable EMS to recover what it costs to render the particular service. Tariffs should promote sustainability and the ability to extend new services – such as the extension of services by means of opening new base stations and adjusting to the changing risk profile within the City.

Emergency Management Services render a wide variety of services that may be classified either as public or private goods. Private goods may be classified as those services that primarily benefit the individual consumer, such as submission of building plans, or standby services at commercial events.

### AMBULANCE TARIFFS

The tariff fees for the transport of patients in an ambulance and other related medical rescue are determined and approved by the Member of Executive Council of Health of the Gauteng Provincial Emergency Medical Services.

### FINES FOR FLAMMABLE LIQUIDS AND EMERGENCY SERVICES BY-LAWS

These fines do not form part of the tariff report as they are determined by the Magistrate, only the issuing of registration certificates is charged for.

#### 4 POLICY IMPLICATIONS

The proposed amended tariffs are in keeping with the Council's Tariff Determination policy.

#### 5 LEGAL AND CONSTITUTIONAL IMPLICATIONS

5.1 The Fire Brigade Services Act, 1987, permits a local authority in control of a Fire Brigade Service to determine the fees payable for the use of the service which may be done by a resolution of the local authority.

5.2 The report has been finalised in conjunction with Group Legal and Contracts to ensure compliance with relevant legislation. It should though be noted that by virtue of Section 28 (6) of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003), once the new tariffs have been determined in respect of the 2019/2020 Financial Year, it may not be further increased during that financial year, except when required in terms of a financial recovery plan as contemplated in the Act. For that reason it is essential to ensure that the proposed increases comply with the budgeted needs of the Council in respect of 2019/2020 Financial Year.

#### 6 FINANCIAL IMPLICATIONS

Due to the historically low revenue levels in EMS, it is difficult to make a true assessment of the possible income that could be realized from the minor increase of the tariffs. All charges being inclusive of VAT.

However, the proposed tariffs as contained in the Annexure attached to the report are related to the indicative budget for 2019/2020. Should the proposed tariffs be approved, the potential additional income would be approximately R2 854 000 annually.
